

Zunic Success Story:

From size XL to medium

Featuring Ray A. Gapuz

THERE WAS A TIME when Ray A. Gapuz weighed 196 pounds, and was having an increasingly difficult time looking for shirts that could accommodate his 43-inch belly and size 12-14 XL frame. That was in 1997, and over the years, he tried different kinds of diets and made frequent visits to the gym. He would shed off the pounds, but within a short period of time, would gain all the weight back again. With his hands-on approach to business and various traveling engagements, he couldn't afford to be called away from his more pressing priorities. He couldn't afford the regularity that the diets and gym memberships required. So much that although his career was flourishing, it seemed that Ray was doomed to remain an XL size.

The Discovery of Zunic's Safe, Painless, and Scientifically-Based Treatments

Fast forward to November 2007. Ray comes across a newspaper article about Zunic, a new slimming facility which promised a safer, painless, and easier alternative to losing weight. He reads on, and is excited to learn that the methods and technologies employed by Zunic are based on scientific research done by reputable international institutions. Being a Psychiatric Nursing Major with an M.A. in Nursing plus an NCLEX U.S.-R.N. certification to boot, he was thrilled to know that Zunic incorporated medically-sound processes in their methodology. He admits, "With my medical field background, it was both refreshing and comforting to see a slimming facility that was scientifically credible. I knew I had to give Zunic a try."

He immediately set a consultation session with Zunic's Makati Center and after meeting with trained medical staff to discuss his own personalized program, he scheduled his first treatment right away.

Presenting The New Ray A. Gapuz:
After 1 ½ months with Zunic

Ten years into his battle with the bulge, this time, Ray was finally determined to shed off the extra weight. With the assurance that his treatments required no strenuous physical effort but would produce visible results in as little as 45 minutes, and that all procedures were safe, non-invasive, and virtually painless, he made a commitment to never miss a session. Ray vigilantly underwent a personalized combined regimen of Contourage™, Metabolique™, AccuTone™, Firmage™, PureLase™, CelluFree™, CelluAvant™, and UltraLift™. Six weeks later, he had lost

53 pounds and was sporting a fabulous 32-inch waistline.

"Imagine the delight and surprise of my students, family and friends! Some colleagues couldn't believe that I lost so much weight without going under the knife and were convinced that I had liposuction. Short of taking my shirt off to show them that I had no surgical scars whatsoever, I just waved them off and proudly said that this body was by Zunic!" laughs Ray. "So I recommended Zunic to all those non-believers so they could see for themselves.

"But above all, I, myself, was amazed. Zunic was able to fulfill everything they promised! All my weight-loss goals were delivered within the timeline I specified, I felt absolutely no pain during my treatments, and every time my sessions were over, I lost around 2 ½ cm around my waist. Believe me, I measured it each time, and the results were immediately felt and seen. I always left Zunic feeling very good about myself."

True enough, everyone who has recently seen Ray A. Gapuz cannot help but comment on his complete transformation. From his original XL-sized 196-pound frame and 43-inch waistline, Ray lost a total of 53 pounds and 11 inches around the waist, and is now back within his normal BMI range of 143 pounds, shirt size: Medium, jean size: 32. Six painless weeks at Zunic achieved for Ray what ten years of traditional weight loss methods could not. No doubt, when Ray waltzes back into his favorite shirt store, whatever clothing he selects to his liking will fit. After all, from his hard-to-find ill-fitting size 12-14 shirts, he is now a slim and easy size 3. And all this, thanks to Zunic.

Visit Zunic today at any of their three branches for a free, confidential consultation. Zunic is open from 8 am to 8 pm, Monday to Sunday.
