

"I lost 50 pounds at Zunic!"

"My triglycerides, blood pressure and cholesterol levels are all back to normal!"

Mr. Gil Tiu chose Zunic because he saw the return of his investment instantly. "I could not achieve this weight loss by enrolling in a gym. I lost 30 lbs. in a matter of weeks! It encouraged me to continue my treatments until I lost 20 lbs. more," he shares. His waist went from 46 to 35 inches.

When Gil Tiu turned 40, he decided to enroll with Zunic because, he says, "Life begins at 40. But I honestly thought that I was a hopeless case." Gil was overweight at 220 lbs. and had high cholesterol levels and a fatty liver. He was taking several maintenance medicines and was asked by his doctor to lose weight.

When he came to Zunic, he was determined to turn his life around. "As a businessman, I always look for the return on investment. You spend money, you expect something in return. And you'll only spend more on medicines because your illness will keep on recurring. Why not invest in getting rid of the root of the problem?"

"Since this is my life, why don't I invest in my health? After a week with Zunic, I already lost weight. I could see my return on investment immediately! I lost 50 pounds after my Zunic program! I went down from 220 lbs. to 170 lbs. My waist line went down from 46 inches to 35 inches!" he enthusiastically shares.

Zunic's unique Slimming and Body Sculpting Methodology™ offers only the latest and the best non-invasive slimming and body-sculpting technology currently available in the world. In the hands of our well-trained medical staff, this makes it possible for Zunic clients to lose record amounts of excess fat (and unwanted inches) that are not possible using traditional slimming methods. Losses of 2 to 3 centimeters around the waist in 45 minutes are so common that our medical staff

consider them everyday occurrences. Given this remarkable rate of loss, just imagine how much better you could look after a single month!

Gil is very proud to declare that he owes his new healthy and confident self to Zunic. "I'm now more confident to approach people. In the past, I just stayed in my office. When I was big, I was too lazy to attend meetings and just sent other people to do things for me. The tendency was to lose clients because I wasn't able to talk to them personally. When I became lighter, everything I did became easier. I'm now more confident to go out and face clients. Even my memory became sharper."

The best part of enrolling with Zunic is you achieve results without the stress, exertion, anxiety and time-consuming regimens associated with traditional slimming methods.

No pills, no diets, no exercise, no injections, no surgery. Our clients can actually show off the results obtained the very same day! There is no bruising or scarring, and there are no needle marks to ruin your appearance.

So if you value your time (and you've tried everything else), come to the slimming center where results are measured in minutes---not days, weeks, or months. Zunic!
